

Resumind AI - Executive Report

Resume Score	40/100
ATS Score	35/100
Health Status	Fair

Executive Summary

- A first-year Computer Science and Engineering student with a strong academic record (CGPA 8.9).
- Demonstrates early initiative with a certification in Java Programming.
- Possesses foundational soft skills such as critical thinking and organizing.
- Currently at the beginning of their academic journey, seeking to build a strong technical foundation.

Strengths

- ✓ Excellent academic performance in both secondary education and current university studies (CGPA 8.9).
- ✓ Proactive in skill development, evidenced by Java Programming certification.
- ✓ Highlights relevant soft skills like critical thinking and organizing.
- ✓ Clear career objective, though general, shows intent for professional growth in IT.

Areas for Improvement

- Lack of practical project experience, which is crucial for demonstrating applied knowledge.
- Very limited technical skill set listed, primarily Java, with no mention of other programming languages, frameworks, tools, or development methodologies.
- Absence of internships, volunteer work, or any relevant professional experience.
- Career objective is generic and could be more specific to desired learning paths or areas of interest for a fresher.
- Includes an irrelevant 'soft skill' (Drawing (pencil art)) which does not contribute to an IT resume.
- Missing a dedicated 'Technical Skills' section to clearly outline competencies.
